

SureColor® T3770E 24-Inch Large-Format Single-Roll CAD/Technical Printer

SureColor T-Series

24" Wide, 6-Color

This design changes everything.

Incredible speed and performance — delivers crisp, detailed, colorful prints using a reliable 2.64" PrecisionCore® MicroTFP printhead, producing remarkable A1/D-size prints in as little as 16 seconds¹

Innovative design fits almost any workflow — unique flattop design with complete front operation and simple automatic roll loading

Stunning image quality and precise line detail — vivid UltraChrome® XD3 Ink with Red Ink produces crisp lines and vibrant colors for graphics, signage, blueprints, documents and more

Print on a wide range of media for various applications — print on a variety of media, including glossy, technical, bond, matte and specialty media, and rigid posterboard up to 1.5 mm thick

Easy to use and maintain — configurable 4.3" touchscreen control panel for simple operation, automated routine maintenance and convenient user self-service for long-term operation

No assembly required — be up and printing in as little as 30 minutes

Versatile connectivity — high-speed USB 3.0, Gigabit Ethernet and Wi-Fi® connectivity (2.4 GHz and 5 GHz) options to fit virtually any production workflow

IT and security features — over 28 IT and security features for office or remote office locations, including IC card option for user control and tracking, SSD Encryption and IEEE 802.1x

Maximize productivity with included Epson® Software Suite and Epson Cloud Solution PORT² — remotely manage and monitor your printer fleet from the convenience of your laptop or smart device

Designed for use exclusively with Epson ink cartridges.*
