

WorkForce® Pro ST-C5000

Supertank Color MFP

Print | Copy | Scan | Fax

Built for productivity, this efficient MFP helps enhance your workflow

Replacement pigment ink bottles

Up to 2 years of ink in the box¹ — includes enough ink to print up to 12,000 pages black/8,800 color²

Engineered for reliability — recommended monthly page volume of 3,300 pages

Lowest power consumption in its class³ — powered by PrecisionCore Heat-Free® technology, advanced printing technology engineered by Epson

Built for productivity — print speed of 25 ISO ppm (black/color)[†] with virtually no warmup time; fast first page out for quick and seamless printing

High performance at a great value — save up to 80 percent with replacement ink bottles; that's about 2 cents per color ISO page compared to 14 cents vs. color laser toner cartridges⁴

Enhance your workflow — large 4.3" color touchscreen for easy setup and navigation; auto 2-sided print, copy, scan and fax

Flexible, efficient media handling — load paper less often with a 500-sheet paper capacity with two front trays; rear feed included for special media

Innovative ink bottles for ease of use — uniquely keyed bottles for each color, with convenient auto-start and auto-stop

Versatile connectivity — easily print from iPad®, iPhone®, Android™ tablets and smartphones⁵; includes Wi-Fi Direct®⁶ and Ethernet networking

World-class service and support — backed by a 2-year limited warranty for added peace of mind

[†] Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed | ^{††} Black and color copy speeds are determined in accordance with ISO/IEC 29183. Actual copy times will vary based on factors including system configuration, and page complexity. For more information, visit www.epson.com/copyspeed | ¹ Based on average monthly document print volumes of about 300 pages. | ² Part of the ink from the included bottles is used for initial setup. Yields are lower than those of replacement ink bottles. Included and replacement ink bottle yields based on the ISO/IEC 24712 pattern with Epson's methodology. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors must be available for printing. For more information, visit www.epson.com/inkinfo | ³ Actual energy savings will vary based on print task and use conditions. Compared with best-selling, similarly featured color laser printers priced at \$1,499 (USD) or less and 40 ppm or less, as of February 2023. Competitive data gathered from manufacturer websites and third-party industry sources. | ⁴ Actual savings and costs will vary considerably based on print tasks, print volumes and usage conditions. Savings and cost per ISO page are based on the cost of replacement ink bottles and the cost of enough standard-capacity color laser toner cartridges to achieve the total page yields of the ink bottles using the manufacturers' online prices and yields for the best-selling similarly featured color laser printers, available at retail, priced at \$1,499 MSRP (USD) or less with speeds of 40 ppm or less per industry available data as of February 2023. Savings of up to \$600 (USD) and cost per ISO page of about \$0.09 (USD) for XL-capacity color laser toner cartridges based on the same methodology. | ⁵ Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com/connect | ⁶ Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct[®] may require printer software. | ⁷ FPOT is measured on letter-size paper in accordance with ISO/IEC 17629. FSOT is measured on letter-size paper in accordance with ISO/IEC 29183 | ⁸ Monthly duty cycle is the highest duty a user could expect in a month, based on near-constant operation of a device of this kind. It is not recommended that the device be run at this duty. For best device performance, run the device at the recommended monthly page volume. | ⁹ Scan to cloud requires an Internet connection, a free Epson Connect account and a destination email address or cloud storage account. For a list of supported cloud services, visit www.epson.com/connect | ¹⁰ Only printing is supported under Windows Server OS. | ¹¹ Some applications and/or functions may not be supported under Mac OS X and macOS. | ¹² Epson Connect account and voice-activated account registration required. See www.epson.com/voice for device compatibility. | ¹³ Based on ENERGY STAR TEC measurement methodology; 288 prints/day; actual electricity consumption may vary depending on printer use. For more information, see www.energystar.gov | ¹⁴ RAM size definition is the total amount of RAM memory capacity inside the device, regardless of memory use. | ¹⁵ Product comes with a 2-year limited warranty with the option to purchase Extended Service Plans up to a total of 5 years of continuous coverage. Extended Service Plan can be purchased at any time that you are covered under an Epson limited warranty or Epson Extended Service Plan.
