Projectors

Education

Keep students engaged wherever they are
in the classroom with bright, large images.

Best-in-Class Color Brightness¹ with 3-chip 3LCD technology — 4,500 lumens of color and white brightness²

Incredible image quality — WXGA resolution at an exceptional value

No lamps to replace ever — solid-state, 20,000-hour, virtually maintenance-free laser light source³

Built-in wireless networking with enterprise-level security — additionally, you can connect with Miracast®, which supports software-free, peer-to-peer wireless connectivity

Connect and cast from up to 50 devices⁴ — free downloadable Epson iProjection™ software makes it easy to cast wirelessly from Chromebooks, iOS® and Android™ devices, Mac® computers and PCs⁴; with moderator feature⁵, teachers never lose control of the displayed content

Versatile display — widescreen aspect ratio up to 16:9 and large image size up to 300" diagonal, with split screen⁶ capability for side-by-side viewing

Flexible installation — 1.6x optical zoom, horizontal and vertical keystone, Quick Corner® and more makes upgrading from an old projector seamless

Easily manage your fleet — configure, monitor and control up to 2,000 networked projectors at once with the free downloadable Epson® Projector Management software⁷

Two HDMI® ports — support quick switching between multiple high-definition AV sources

Engage your classroom with the powerful 16 W speaker — or connect external speakers with the projector's Audio Out port

1 Color brightness measured per IDMS 15.4. Additional colors and picture modes tested. Top-selling Epson 3LCD projectors vs. comparable top-selling 1-chip DLP projectors based on NPD sales data for October 2019 - September 2020. COLOR BRIGHTNESS WILL VARY BASED ON USAGE CONDITIONS. | 2 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118. | 3 No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period. | 4 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details. | 5 Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks. | 6 Consult your user manual for Split Screen input combinations. | 7 Internet connection required for download. Data usage fee may apply. | 8 For convenient and reasonable recycling options, visit www.epson.com/recycle | 9 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
